# NEWSLETTER

**April 1 through 15, 2001**

# STATE CLEARINGHOUSE NEWSLETTER

The State Clearinghouse distributes draft environmental documents to state agencies for review and comment, pursuant to the California Environmental Quality Act (CEQA). The State Clearinghouse also acts as the State Single Point of Contact for the review of federal grant applications and federal development projects. This Newsletter summarizes the environmental documents, federal notices and federal grant applications received by the Clearinghouse during the period **April 1 through 15, 2001.**

## CLEARINGHOUSE CONTACTS

Please contact The State Clearinghouse if you have any questions regarding processing of environmental documents or grant applications. We may be reached at:

Telephone: (916) 445-0613  
Fax: (916) 323-3018  
e-mail: [state.clearinghouse@opr.ca.gov](mailto:state.clearinghouse@opr.ca.gov)  
website: [www.opr.ca.gov/clearinghouse.html#clearinghouse](http://www.opr.ca.gov/clearinghouse.html#clearinghouse)

Questions regarding federal grant notices should be directed to Sheila Brown.

Questions regarding processing of environmental documents should be directed to:

Katie Shulte and Karen Fowler (for projects in Northern California)  
Scott Morgan and Brian Grattidge (for projects in Southern California)

## CLEARINGHOUSE MAILING ADDRESS

Please do not use our street address (1400 Tenth Street, Room 222) for mailing purposes. The correct mailing address is:

STATE CLEARINGHOUSE  
P.O. BOX 3044  
SACRAMENTO, CA 95812-3044

## INFORMATION AVAILABLE ON-LINE

The 1999 CEQA Guidelines are available from the Resources Agency's website at <http://ceres.ca.gov/ceqa/>.

The State Clearinghouse Handbook, which contains all of our environmental document and grant processing procedures and forms, is available on our website.

**Turn off computers (or enable the "sleep mode"), printers, and monitors not in use. Switch off other business equipment machines and equipment not necessary for the conduct of business.**

# Federal Notices

<b><u>Intergovernmental Review Notices (April 1st-15th, 2001)</u></b>
---

The following are notices received by the State Clearinghouse from federal agencies in compliance with Executive Order 12372. If you would like more information about the subject matter, please contact the agency representative listed below.

**AGENCY:** Federal Energy Regulatory Commission

**CONTACT:** Doan Pham

**TELEPHONE:** (202)219-2851

**E-MAIL:** doan.pham@ferc.fed.us

**ADDRESS:** Federal Energy Regulatory Commission, 888 First Street, NE,  
Washington, D.C. 20426

**DESCRIPTION:** Notice of application for amendment of license filed March 29, 2001. SCE proposes to delete transmission lines extending from the respective powerhouses to the control station. SCE indicates that these lines should be deleted because they are a part of SCE's interconnected system. SCE also proposes changes in the project boundary line to (1) add about 1017 acres of BLM lands to include existing access roads and gaging stations within the project boundary, and (2) delete 33.18 acres FS lands to exclude non-operational company housing. Comments should include the Project Number (1394-040).

**COMMENT BY:** May 4,2001

**AGENCY:** Federal Energy Regulatory Commission

**CONTACT:** Doan Pham

**TELEPHONE:** (202) 219-2851

**E-MAIL:** [Doan.pham@ferc.fed.us](mailto:Doan.pham@ferc.fed.us)

**ADDRESS:** Federal Energy Regulatory Commission, 888 First Street, NE,  
Washington, DC 20426

**DESCRIPTION:** Notice of application for amendment of license filed March 29, 2001. SCE proposes to delete a transmission line extending from (1) Big Creek BC1

powerhouse to BC2 powerhouse, (2) a transmission line extending from BC1 powerhouse to Rector, and (3) 456.88 acres of federal lands for transmission lines right-of-way. SCE indicates that these lines should be deleted because they are a part of SCE's interconnected system. The change in boundary line proposed would add about 60-73 acres of federal land to include existing access roads, certain telephone lines, gaging stations with the project boundary, and (2) delete 76.16 acres federal lands to exclude certain telephone lines and a bypass creek extending from Dam #1 to the BC1 powerhouse. Comments should include Project Number (2175-009).

**CONTACT:** Philip A. Shannin

**TELEPHONE:** (415) 944-8445

**E-MAIL:** [Pshannin@spd.usace.army.mil](mailto:Pshannin@spd.usace.army.mil)

**ADDRESS:** Regulatory Branch, 333 Market Street, San Francisco, CA 94105-2197

**DESCRIPTION:** TC Residential North Bay Area, Inc. has applied for a permit to permanently fill 0.11 acres of Waters of the United States located in an unincorporated area adjacent to El Camino Real, near the Town of Colma in San Mateo County, California. Applicant plans to construct a 144-unit apartment project. Applicant's proposal was selected as the project best responding to the goals of the Area Plan and Samtrans goals. A remnant of East Colma Creek that enters the site will be relocated to the western edge of the site and placed in a concrete box culvert no greater than 60 inches wide. Any comments should include Project number 25830S.

# CEQA Documents

## Key for abbreviations of Document Type:

CON	Early Consultation Notice
EIR	Draft Environmental Impact Report
SIR	Supplemental EIR
SBE	Subsequent EIR
EIS	Draft Environmental Impact Statement
EA	Draft Environmental Assessment
JD	Joint Document (CEQA/NEPA)
FONSI	Finding of No Significant Impact
Neg Dec	Negative Declaration/Mitigated Negative Declaration
NOE	Notice of Exemption
NOD	Notice of Determination
NOP	Notice of Preparation (of an EIR)
Oth	Other type (none of the above)

## CEQA Actions

SCH Number	Title / Lead Agency / City--County / Description	Document Type	Ending Date
<b><u>Documents Received on Monday, April 02, 2001</u></b>			
2001041004	Conditional Use Permit No. C-01-063 Fresno, City of --Fresno Proposed Material Sort Facility and Transfer Station to process recyclable materials such as green and wood materials, commercial wastes, hazardous wastes, construction and demolition wastes, municipal wastes, industrial and inert wastes. There will also be a hazardous materials exchange program. Project is consistent with City of Fresno plans, policies and zoning regulations.	<b>CON</b>	04/23/2001
1998081027	Merced College/Meadowlands II Annexation Revised Draft EIR Los Banos, City of Los Banos--Merced The proposed project includes the annexation of the project site and pre-zoning of the project site. Proposed land uses include a 125-acre community college site, 50.7-acre high school site, 177.8 acres of low density residential uses and 7.6-acres of commercial uses. Storm drainage basins would occupy between 25 and 30 acres of the site. Portions of the storm basins could be used for secondary uses. Development of the commercial and residential areas and the high school is expected to occur over a 20-year period. Build-out of the community college is expected to occur over a 40-year period.	<b>FIN</b>	
2000091059	2001 Regional Transportation Plan (RTP) Update Program Southern California Association of Governments --Los Angeles, Orange, Riverside, San Bernardino, Ventura, ... The 2001 RTP Update is a long-range regional transportation plan that provides a blueprint for future transportation improvements within the six county SCAG region and is based on specific transportation goals, objectives, policies and strategies.	<b>FIN</b>	
1998041098	Mid-State Bank Development Plan ED97-(D960250D) San Luis Obispo County --San Luis Obispo Mid-State Bank proposes to develop the 13.0-acre parcel with a 7,000 square foot bank building to be developed in one phase. A parking lot (38 spaces) and two access driveways will also be provided. Approximately 11.0 acres of the project site would be devoted to to recreation or open space uses.	<b>NOP</b>	05/01/2001
2001041001	Seagate Subdivision and Planned Unit Development Seaside, City of Seaside--Monterey Subdivision of 343 residential parcels for 352 residential units; 10,000 square feet of commercial uses on a 1-acre parcel; park and community center and drainage basin. Project includes a vesting tentative map, planned unit development and conditional use permit.	<b>NOP</b>	05/01/2001
2001042003	Metrobase Facility - Harvey West Santa Cruz Metropolitan Transit District Santa Cruz--Santa Cruz The Santa Cruz Metropolitan Transit District is proposing an operations and maintenance facility (MetroBase) to consolidate the majority of the District's bus	<b>NOP</b>	05/02/2001

	maintenance, vehicle storage, and administrative offices at one location. The new facility is proposed to support 175-200 buses. The EIR/EIS will address two development options for the project, referred to as Option A and B. Under Option A, the proposed facility will be developed on the 20-acre Encinal Street site. Option B includes development of the western portion of the Encinal site (15 acres), and use of the District's existing River Street site (2.5 acres) for bus storage.		
2001041002	Final Site Plan Review PSR 00-018 Tulare County Resource Management Agency --Tulare Final Site Plan Review to allow a 64 unit multi-family housing project on a 7 acre parcel in the R-2 (Two Family Residential) zone.	<b>Neg</b>	05/01/2001
2001041003	Conditional Use Permit/Zone Change 99110-Interior Removal Specialist Los Angeles County Department of Regional Planning La Puente--Los Angeles The proposed project is a request for a Conditional Use Permit and parcel map to authorize the additional use of a site by a demolition contractor who stores recovered building materials on the subject property. The majority of these materials are from the interiors of high-rise buildings. The applicant proposes to clean, sort, and sell these materials at wholesale within a proposed 16,554 square foot concrete building in the south portion of the property. The zone change is to change the M-1 1/2-BE and B-1 zones to M-2-DP-BE (Heavy Manufacturing-Development Program- Billboard Exclusion).	<b>Neg</b>	05/01/2001
2001041005	Proposed Mission Avenue Interchange Frontage Road Merced, City of Merced--Merced (1) Proposed frontage road providing local circulation connections for a pending interchange (Mission Avenue/Highway 99). (2) Redesignation of a portion of a designated 'collector' to local street adjacent to a school (and cutting street off via a cul-de-sac from major area traffic source).	<b>Neg</b>	05/01/2001
2001041006	Camarillo Satellite Relocation/Reconstruction Project Conservation, Department of Camarillo--Ventura The proposed project would construct a new, approximately 48,600 square foot facility for the California Conservation Corps. The facility would consist of the following one-story buildings: four residential buildings, administration building, warehouse, hazardous materials storage building, multi-purpose building with kitchen/dining room, and educational and recreational buildings for approximately 104 corpsmembers and 35 staff.	<b>Neg</b>	05/01/2001
2001042001	Lease Renewal for Maintenance Dredging of Gravel and Materials from Combie Reservoir Nevada County Irrigation District --Nevada, Placer The project is the renewal of a lease to do maintenance dredging of aggregates in order to restore the initial capacity of Combie Reservoir. Leasee currently has all necessary Federal, State and local governmental permits. Leasee will continue to use a floating cutter-head dredge removing material from the central part of the	<b>Neg</b>	05/01/2001

2001048019	Hangtown Fence Project Parks and Recreation, Department of --Sacramento The Hangtown fence project extends and modifies the existing fencing surrounding the Hangtown track. The fencing will assist park personnel in controlling traffic flow and direction during the annual races, provide the ability to separate different events occurring at the same time, and protect the riparian and wetland habitat at the pond.	<b>NOE</b>	
2001048020	Barry Jones Mitigation Bank Fish & Game Commission Temecula--Riverside To acquire approximately 140 acres through a conservation easement for the protection of habitat as a condition of mitigation.	<b>NOE</b>	
2001048028	Relocation of San Juan Unified School District Bus Yard Facility San Juan Unified School District --Sacramento The San Juan Unified School District proposes to relocate its bus yard facility from its current location at 3738 Walnut Avenue in Carmichael, California, to a 3.6 acre parcel presently owned by the Sacramento Metropolitan Fire District, located at 3050 Orange Grove Avenue in the North Highlands area of Sacramento County. In addition, the District proposes to asphalt an adjacent 1.96 acre parcel located west of the 3.6 acre parcel for overflow parking. The combined acreage from the two parcels will accommodate parking for up to 201 buses and 250 private vehicles. Vehicular traffic will be dispersed along Orange Grove Avenue on weekdays at various different intervals beginning at 5 a.m. and ceasing at 6 p.m..	<b>NOE</b>

1994023011	Santa Cruz Gardens Subdivision Unit #12 Santa Cruz County Santa Cruz--Santa Cruz Project proposes a subdivision to create 10 single-family lots and one remainder lot, including a zoning change to R-1-6 (Single-Family Residential with a 6,000 square feet minimum lot size) and cancellation of a temporary open space easement.	CON	04/25/2001
2001044001	McClure Dairy Barn and Resource Enhancement National Park Service --Marin This Environmental Assessment (EA) has been prepared to assist National Park Service (NPS) with planning and decision making and to determine whether an Environmental Impact Statement (EIS) is required for the proposed freestall (loafing) barn and resource enhancement project at the I-Ranch (McClure Dairy), Point Reyes National Seashore (PRNS). The objectives of the project are: 1.) Reduce the risk of water quality impairments (sediment and nutrients from animal waste) in Abbots Lagoon and wetland areas adjacent to Pierce Point Road by containing 100% of animal waste. 2.) Enhance and restore upland and wetland areas that have been degraded by cow access. 3.) Improve dairy cow health and dairy profitability by constructing a freestall barn to house cows during the winter and at other times throughout the year.	EA	05/02/2001
1999051013	Lytle Creek North Planned Development Project San Bernardino County Preliminary Development Plan for 2,466 dwelling units, 45 acre mixed commercial/office/light industrial, 10-acre school site, sewage treatment facility, parks and open space on 647 acre +/-, related General Plan Amendments and Master Tentative Tract Map.	EIR	05/17/2001
1999111114	Santa Nella County Water District Improvements (formerly Eastside Wastewater Treatment Plant) Santa Nella County Water District Santa Nella Village--Merced The project proposes three actions: 1.) the development of a wastewater treatment plant, 2.) construction of a water booster pump station, and 3.) realignment of the Santa Nella County Water District boundaries.	EIR	05/17/2001
2000091063	Gano Reservoir and Unit X Pipelines Project Olivenhain Municipal Water District San Diego--San Diego A Draft Environmental Impact Report (DEIR) has been prepared to address a proposal by the Olivenhain Municipal Water District (OMWD) for the construction of two water storage reservoirs and associated pipelines within the unincorporated	EIR	05/17/2001

	<p>portion of the County, in and around what is generally known as Santa Fe Hills. Phase I activities include grading the site for two reservoirs, installation of the pipelines, completion of access routes, construction of one storage reservoir, and associated disinfection system. The construction period would be approximately one year for Phase I. The second reservoir would be constructed during Phase II, in five to eight years, when additional anticipated water demands are realized. The OMWD prepared a Comprehensive Water Master Plan in January 2000 and verified the need for additional water storage capacity in the southern portion of the District Usage within the San Dieguito Valley exceeds the original demands that were estimated for domestic and irrigation use. The project would: (1) increase peak demand and provide additional short-term water storage, (2) increase and improve fire storage ensuring that recent changes in fire flow requirements are met, and (3) optimize hydraulic requirements by using gravitational flow. The major issues addressed in the EIR include biology, visual quality, and cultural resources. Significant but mitigable impacts would occur to biological resources.</p>		
2001011090	<p>Metromedia School Site for Central Los Angeles Area New High School No. 1 &amp; Hollywood Continuation High School Los Angeles Unified School District Los Angeles, City of--Los Angeles</p> <p>The District proposes to construct 2 new high schools. The Central Los Angeles Area New High School No. 1 is proposed to provide 1,508 two-semester seats, accommodating 2,111 students in the 9th through 12th grades year-round. The facilities are expected to include 178,000 square feet of building space, including: 52 classrooms, 8 special day classrooms, 3 set-aside classrooms, an auditorium, gymnasium, parking lot, and library, as well as food service, administration, and other support facilities. Additionally, the school may include underground parking due to space limitations. The Hollywood Continuation High School No. 1 is proposed to accommodate 87 students in 9th through 12th grades year-round. The facilities are expected to include approximately 11,246 sf of building space, including: 6 classrooms, a workroom, two conference rooms, a library, an eating area, and 2-3 offices. It would also have a covered arcade and outdoor eating area.</p>	<b>NOP</b>	05/02/2001
2001031120	<p>General Plan Amendment and Otay Ranch General Development Plan Amendment 2001 Chula Vista, City of Chula Vista--San Diego</p> <p>The proposed General Plan Amendment and Otay Ranch General Development Plan Amendment 2001 includes the following project elements:</p> <ul style="list-style-type: none"> <li>. Reconfiguration of Village boundaries;</li> <li>. Realignment and reclassification of circulation element roads;</li> <li>. Reorganization of land use designations; and</li> <li>. Amendments to the Otay Ranch Village Phasing Plan</li> </ul> <p>The proposed project also includes implementation of the proposed Village 11 Sectional Planning Area (SPA) Plan, and a conceptual tentative map.</p>	<b>NOP</b>	05/02/2001

2001041007	View Point School Campus Expansion, City of Calabasas Calabasas, City of Calabasas--Los Angeles The proposed development will be implemented over a 15-20 year period. Preliminary designs are based on three increments of project construction. Initial construction will require approximately 3 years to complete and will generally consist of on-site grading, infrastructure improvements and utilities development, reconfiguration of existing parking areas, and construction of new parking lots, administration and middle school buildings, a cafeteria, and an auditorium. The structures proposed for the upper school will be completed as part of the second increment, which is anticipated to be completed by the end of 2007. The third and final increment will include alteration to the primary and lower school as well as alterations to the western parking area and play field.	<b>NOP</b>	05/02/2001
2001041008	Thompson/Tabata-ZC 98-08/LCPA 98-04/CT 98-14/PUD 98-05/CP 00-02/SDP 99-06/HDP 98-15/CDP 98-68 Carlsbad, City of Carlsbad--San Diego Request for a Zone Change and Local Coastal Program Amendment to change 40.41 acres of the subdivision from Limited Control (L-C) to Residential Multiple-Density with a Qualified Development Overlay Zone (RD-M-Q) and to change 41.79 acres from Limited Control (L-C) to One Family Residential with a Qualified Development Overlay Zone (R-1-Q); and a Tentative Tract Map, Planned Unit Development Permit, Site Development Plan, Condominium Permit, Hillside Development Permit and Coastal Development Permit to subdivide, grade, and develop 82.20 acres, creating 238 single family lots, two open space lots, four recreation lots, one recreational vehicle storage lot and a 24 unit, for-sale condominium project, affordable to lower-income households.	<b>Neg</b>	05/02/2001
2001042008	Zumbach/Beyer's Ranch Williamson Act Contract Cancellation & Placement of Conservation Easement Livermore, City of Livermore--Alameda Rescind the Williamson Act contract on 15.3 acres in exchange for placement of a permanent agricultural conservation easement over a 40-acre portion of the approximately 410-acre Beyer's Ranch property pursuant to Government Code Section 51256.	<b>Neg</b>	05/02/2001
2001042009	Gott Enterprises Lot Line Adjustment and Zone Reclassification Humboldt County Planning Department --Humboldt A lot line adjustment (LLA) between three parcels to result in Parcels 1 and 3 of 5 acres and Parcel 2 of approximately 47.1 acres. The LLA will reconfigure existing parcels into a more manageable layout for current and future uses. A Zone Reclassification (ZR) into TPZ those lands zoned U within resultant Parcels 1 and 3. The LLA and ZR will result in a net gain of TPZ zoned land in a better management unit.	<b>Neg</b>	05/02/2001

	Application 29849 provides for the additional withdrawal from an existing 100 AF on-stream reservoir (locally known as Greeott Reservoir). Application 29850 provides for the on-stream storage and use of 25 AF of water in a previously constructed reservoir known as Grubbins Reservoir that is immediately upstream of Donovan Reservoir. Water collected in the Grubbins Reservoir is released to replenish Donovan Reservoir for redistribution as it is drawn down for use. Beneficial use of the water is for the irrigation, frost protection, and heat control of 194 acres of existing vineyards.		
2001048021	Tahoe City PUD Lakefront Sewer Main Repair Regional Water Quality Control Board, Region 6 (Lahontan), South Lake Tahoe --Placer TCPUD is repairing a section of sewer main that was temporarily repaired after it was damaged in November 2000. The permanent pipeline repair will occur in the shoreline of Lake Tahoe.	<b>NOE</b>	
2001048022	Agreement R4-2000-0103; Thomsen Property Kern River. Fish & Game #4 Bakersfield--Kern The Operator proposes to place four 36-inch x 12-foot-long culverts side-by-side in a seasonal creek that drains into the Kern River. The Operator proposes to construct a road deck over these culverts. The Operator proposes to plant 25 trees in the project area. The Operator proposes to place landscape boulders and large rocks along the banks of the unnamed tributary of the Kern River. The Operator proposes to install an irrigation system on the floodplain to maintain landscaping. A pump will be placed in the Kern River to provide water for this irrigation system. The Operator proposes to construct a perimeter fence along the property boundary. The Operator proposes to construct a corral for horses and animals.	<b>NOE</b>	
2001048023	Agreement R4-2001-0161; Salt Creek and Salt Creek Bypass Erosion Control Fish & Game #4 --Fresno The Operator will use excess fill dirt from nearby the site to repair approximately 1,365 linear feet of erosion damage on the south bank of Salt Creek. Heavy construction equipment will deposit fill where the banks have been eroded. The in-fill will be moistened, compacted, and shaped to USDA Natural Resource Conservation Service specification. Vegetation will be planted on the south bank to armor and stabilize the repair. The Operator will use excess fill dirt from nearby the site to repair approximately 975 linear feet of erosion damage on the east bank of the Salt Creek Overflow channel. The repair procedures will be completed as described above. The Operator will clear vegetation and debris from the channel bottom and the lower 1/3 of the banks of Salt Creek and the Salt Creek Bypass. This work will be done by hand labor only. Debris will be placed in piles and burned.	<b>NOE</b>

<b><u>Documents Received on Wednesday, April 04, 2001</u></b>			
1992121057	Fourth Street/Highway 101 Improvement Project Phase II Pismo Beach, City of Pismo Beach--San Luis Obispo Construction of freeway access ramps and installation of rip rap and culvert along unnamed tributary to Meadow Creek, City of Pismo Beach at State Highway 101. The California Department of Fish and Game is executing a Lake and Streambed Alteration Agreement Number R3-2000-1430 pursuant to Section 1601 of the Fish and Game Code to the project operator, R. Dennis Delzeit.	<b>NOD</b>	
1996013041	Wendt Ranch Project and Related Entitlements Contra Costa County The operator proposes to construct a 60-inch diameter storm drain outfall structure along the banks of the East Fork of Alamo Creek. The operator will also repair two existing stock ponds. The California Department of Fish and Game is executing a Lake and Streambed Alteration Agreement Number R3-2000-0284 pursuant to Section 1603 of the Fish and Game Code to the project operator, Steve Savage/Shapell Industries.	<b>NOD</b>	
1997092068	Mission Bay Redevelopment Plans (96.771E) San Francisco, City and County of San Francisco--San Francisco Approval of design and for 145,750 square foot office space Project Authorization for a 158,328 gross square foot building in Mission Bay South Redevelopment Area - Block 26 East.	<b>NOD</b>	
1997092068	Mission Bay Redevelopment Plans (96.771E) San Francisco, City and County of San Francisco--San Francisco Approval of design and for 60,150 square foot office space Project Authorization for a 308,290 gross square foot building in Mission Bay South Redevelopment Area - Block 28. Undertaken pursuant to and in furtherance of 96.771E: Mission Bay Subsequent EIR - Mission Bay Redevelopment Plan.	<b>NOD</b>	
1999082097	Anderson-Rowe Ranch Development Areas B,C and D, Redwood Boulevard and Palmer Drive Novato, City of Novato, Ignacio--Marin This project is located just north of Ignacio Boulevard in the City of Novato and includes the filling of 1450 linear feet of intermittent and ephemeral streams tributary to Arroyo San Jose. An estimated 1210 cubic yards of fill would be discharged to these ephemeral streams. To mitigate for wetland habitat loss in the ephemeral streams, the Operator will do on-site and off-site mitigation including open space lands at the Burdell Ranch Wetlands Mitigation Bank. The mitigation includes the restoration and creation of a new stream channel. The California Department of Fish and Game is executing a Lake and Streambed Alteration Agreement Number R3-2000-1404 pursuant to Section 1603 of the Fish and Game Code to the project operator, Karen Pell/Four Star Investment and Management Company.	<b>NOD</b>

2001022032	Alvarado Boulevard Truck Sewer Project Union Sanitary District Fremont, Union City--Alameda 16,650 feet of sewer collection pipeline on Alvarado and Fremont Boulevards between Alvarado Wastewater Treatment Plant and Decoto Road.	<b>NOD</b>	
2001049001	Streambed Alteration Agreement 2001-0106 Forestry and Fire Protection, Department of --Mendocino The following project activities involve drafting water from two locations on the North Fork of the South Fork (NFSF) and one on the South Fork (SF) Noyo River, Mendocino County. Access to the drafting sites can be obtained via Jackson State Demonstration Forest (JDSF) road 300 from state highway 20. This agreement will be amended to the existing timber harvest plans (1-99-483 MEN and 1-99-484 MEN). The timber harvest plan (THP) map "Brandon Gulch 2000 Appurtenant Roads Map Section 30 and 32: T18N; R16W; Noyo Hill 7.5 minute quadrangle USGS Map" specifically indicates the location at which the drafting will require the Streambed Alteration Agreement.	<b>NOD</b>	
2001049002	Streambed Alteration Agreement 2000-1337 Forestry and Fire Protection, Department of --Mendocino The applicant proposes to remove one culvert from a class II watercourse and alter the adjacent bed, bank, or channel. The culvert is located at a class II watercourse crossing described in the timber harvest plan (1-00-312-MEN) located on MRC property. The crossing is located approximately 6.3 miles inland from the coast and three quarters of a mile south on an appurtenant road intersecting the Philo Greenwood Road between Philo and Elk. Construction shall take place between the period of June 1 to October 31, 2001. The California Department of Fish and Game (DFG) is executing a Lake and Streambed Alteration Agreement 2000-1337, pursuant to Section 1603 of the Fish and Game Code to the project applicant, Russ Shively, Mendocino Redwood Company.	<b>NOD</b>	
2001049003	Streambed Alteration Agreement 2001-0111 Forestry and Fire Protection, Department of --Santa Cruz The applicant proposes removing culverts in Class III watercourses following a timber harvest. The California Department of Fish and Game (DFG) is executing a Lake and Streambed Alteration Agreement, pursuant to Section 1603 of the Fish and Game Code to the project applicant, James Hildreth, Santa Cruz Timber Company.	<b>NOD</b>	
2001049006	Zone 1/Zone A Reservoir Project Santa Margarita Water District San Clemente--Orange The Zone 1/Zone A Reservoir project proposes construction of two water storage facilities, one for domestic use and one for non-domestic (irrigation) use, a booster pump station, and inlet and outlet facilities. Both tanks will have a high water elevation of 714 feet.	<b>NOD</b>

2001044002	<p>Draft California Desert Conservation Area Plan Amendments for the Northern Eastern Mojave</p> <p>U.S. Department of the Interior</p> <p>--Inyo, San Bernardino</p> <p>The Draft 2000 California Desert Conservation Area Plan Amendments for the Northern and Eastern Mojave (NEMO) Planning Area address: (1) the adoption of standards of public land health with specific guidelines for livestock grazing; (2) the protection of threatened and endangered species, as well as species that may be considered for listing in the reasonably foreseeable future by evaluating the habitat requirements and necessary management actions for each such species; (3) multiple-use class of lands released from wilderness consideration and the changes necessary to conform the California Desert Conservation Area Plan to the California Desert Protection Act passed by Congress in 1994; (4) the adoption of an appropriate long-term strategy for motorized competitive speed events outside of Off-Highway-Vehicle open areas in the planning area; (5) the designation of routes of travel within the planning area; (6) elimination of permitted solid waste land fills from public lands in the planning area; and (7) the identification of rivers eligible for the National Wild and Scenic Rivers System in the planning area. The preparation of this document was coordinated with numerous individuals, Federal and State agencies, special interest groups and County governments.</p>	EIS	07/18/2001
2001041017	<p>Chocolate Mountain Ranch; TM 5144, AD 98-030/Environmental Log No. 98-14-028</p> <p>San Diego County, Department of Planning and Land Use</p> <p>--San Diego</p> <p>The project is the development of 96 single family detached homes. The property includes 245 acres, 98 of which will be preserved as open space. This 98 acres is located at the northern and eastern portions of the site. Of the remaining 147 acres, 96 lots would be located on pads ranging from 8,000 feet to 12,000 square feet per lot within the southeastern portion of the site. Each lot would be accessed through a publicly owned and maintained country road-style street system planned for implementation simultaneous with project development. Consistent with the County's 1 dwelling unit per 2 acres, animal husbandry activities will be prohibited. Future residents of Chocolate Mountain Ranch Estates will access the properties via Interstate 8. Dunbar Lane and Chocolate Summit Road. In order to support the addition of 96 single-family units, a new 2-lane street will be developed near the southwestern corner of the site. This 2,400 foot long access roadway will connect to Chocolate Summit Drive approximately 1,500 feet from the Chocolate Summit Drive/Dunbar Lane intersection.</p>	NOP	05/07/2001

2001021045	Tentative Tract 6000 "Optional Design" Bakersfield, City of Bakersfield--Kern Tentative Tract 6000 "Optional Design" containing 313 buildable lots, 5 landscape lots, 3 open space lots, one sump lot and one water well lot on 219.92 acres for single family residential purposes, zoned R-1 and R-1 HD. The optional design applies to non-radial, non-perpendicular lot lines, double frontage lots, private streets, reverse corner lots, centerline radius less than 500 feet, and block lengths in excess of 1,000 feet. The applicant proposes to obtain waiver of surface entry or signatures from all parties prior to the final map being recorded. In addition, the location and use of a Class III Bike Route through the subdivision will also be considered at the hearing.	<b>NOD</b>	
2001021125	Sequoia 1-5 California Division of Oil, Gas, and Geothermal Resources Delano--Kern Request to drill and test an exploratory oil on a 6.5 acre site.	<b>NOD</b>	
2001049004	Shea Homes, EIR 99-41 for Tract 5248/CZ-267 Fish & Game #5 Camarillo--Ventura California Department of Fish and Game is executing a Lake and Streambed Alteration Agreement pursuant to Section 1603 of the Fish and Game Code to the project applicant, Dale Blanchard of Shea Homes. The applicant proposes to relocate 3 seasonal drainages, eliminate 2 drainages and restore the main channel in St. John's Creek to be able to fit 101 homes on 31.5 acres.	<b>NOD</b>	
2001048107	Las Juntas Elementary School Parking Lot Expansion Martinez Unified School District Martinez--Contra Costa Demolition and removal of an existing house located adjacent to the existing Las Juntas Elementary School. The purchase of parcel #380-180-066 and demolition of the existing house will allow for the district to expand the existing parking area and improve traffic circulation in and around school property. There are no plans to expand the existing school structure. Demolition of the structure will be undertaken in compliance with state regulations regarding hazardous materials and all required state clearances.	<b>NOE</b>	
2001048108	Cold Creek Restoration Los Angeles County Calabasas--Los Angeles Restoration of a creek, removal of non-native plants, outbuildings, and revegetation with native species.	<b>NOE</b>

<b><u>Documents Received on Monday, April 09, 2001</u></b>			
1999091126	430 Water Pressure Zone Reservoir and Pipeline San Buenaventura, City of Ventura--Ventura Construction of two new buried concrete water reservoirs with a capacity of 2 million gallons (MG) each for a combined total of 4 million. Associated 1.9 mile 24-inch inlet/outlet water pipeline and several other minor components including, but not limited to, the installation of an underground electrical line and the paving of the reservoir access road.	<b>EIR</b>	05/23/2001
2000081050	Fontana Business Center Fontana, City of Fontana--San Bernardino The City of Fontana proposes the development of an industrial business park. The Project would cover approximately 247 acres and consists of industrial and commercial land uses. Industrial land uses would comprise approximately 237 acres, and a smaller commercial node located at the southwest corner of the site would comprise approximately 10 acres. The Project as proposed would provide up to approximately 4.7 million square feet of light industrial uses and up to approximately 100,000 square feet of commercial uses. Because significant infrastructure has been financed and assessed to the land, it is important that a viable project be developed at the subject site. The City of Fontana has initiated the actions described in the EIR to enable the development of a high quality, industrial business park.	<b>EIR</b>	05/23/2001
2001042049	Alcatraz Island Historic Preservation and Safety Construction Program Draft EIS National Park Service --San Francisco The proposed action includes ten structural and engineering projects designed to preserve historic structures and protect staff and visitors.	<b>EIS</b>	05/23/2001
2000111035	City of Farmersville North Side Sewer Project Farmersville, City of Farmersville--Tulare The proposed project is located in the City of Farmersville, County of Tulare and includes the development of a fifteen-inch (15") sanitary sewer line along Walnut Avenue from Farmersville Boulevard west to Ventura Avenue, a new pump station to be located at the corner of Walnut Avenue and Ventura Avenue, and a force main southward along Ventura Avenue to a point south of the Southern Pacific Railroad, and thence westerly to a point west of Virginia Avenue, and southerly of Visalia Road.	<b>FON</b>	05/08/2001
2001041036	Add High Occupancy Vehicle Lane and Auxillary Lanes to Southbound I-405 from I-10 to Waterford Street Caltrans Los Angeles, City of--Los Angeles This project proposes to improve southbound interstate 405 between National Boulevard and Waterford street by building one High Occupancy Vehicle land and auxillary lanes between the existing on-and off -ramps, and premanently closing the Waterford street.	<b>JD</b>	05/08/2001

	areas indentified for site reclamation.		
2001042047	Del Norte Solid Waste Management Authority's Transfer Station/Materials Recovery Facility Del Norte Solid Waste Management Authority --Del Norte The project may include a number of other waste management services including: 1.) A processing and storage area for recyclables (bottles, cans, paper, etc.) in preparation for shipping off-site. 2.) A household hazardous waste (HHW) collection, processing, and storage facility. A small building or lockable container surrounded by a paved area will likely serve this function (batteries, oil, paint, antifreeze and oil filters). 3.) A sewage sludge and septage processing center. It would consist of facilities for unloading the materials, processing/treating them, then redistributing them. Processing/treatment may include dewatering, lime stabilization, or composting. 4.) Facilities for incubating small business enterprises based on recycling and resource recovery. These may take the form of indoor and outdoor storage, processing, repair, and resale areas.	<b>NOP</b>	05/08/2001
2001041028	Grading of Amargosa Flood Control Basin Lancaster, City of Lancaster--Los Angeles Grading of Amargosa Creek Retention Basin is the grading of approximately 52 acres of the floor of the existing Amargosa Creek Retention Basin at Avenue H. The project will increase the capacity of the existing basin by lowering the floor by up to 4". Approximately 9 acres of vegetation in the southeast corner of the basin will not be disturbed. Grading of the basin will require the use of heavy equipment for digging and removal of silt and soil, which will be disposed of the accordance with applicable regulations.	<b>Neg</b>	05/08/2001
2001041029	Matulich (PLN990185) Monterey County Planning & Building Inspection --Monterey The applicant is seeking a Coastal Development Permit for construction of an access bridge across Carneros Creek for access to an agricultural area.	<b>Neg</b>	05/08/2001

<b><u>Documents Received on Monday, April 09, 2001</u></b>			
1999022065	Lodi Gas Storage Project Public Utilities Commission Lodi--San Joaquin, Sacramento The Lodi Gas Storage project consists of natural gas storage facilities located at Lodi, San Joaquin County, and 33 miles of natural gas transmission pipeline stretching from Sherman Island in Sacramento County. The project will result in impacts to the winter-run Chinook salmon, Delta smelt, giant garter snake, and the Swainson's hawk, which are protected under the California Endangered Species Act, requiring issuance of a California Incidental Take Permit ("Permit").	<b>NOD</b>	
1999052028	Lake Merritt Outfall Channel Improvements (Zone 12, Line R) Oakland, CA Alameda County Flood Control and Water Conservation District Oakland--Alameda The proposed project would involve the following: cleaning and repair of the 10th and 12th Street culverts, installation of wingwalls and a maintenance road at the 10th Street culverts, repair of existing wingwalls at the 7th Street pump station and replacement of trash racks at the pump station. All area under construction would be dewatered during construction. The purpose of the proposed project is to correct several problems in the Lake Merritt Flood Control system. First, to decrease flooding in the Lake Merritt area by restoring the design capacity of the culverts, and by improving the flows through the trash racks; secondly, to repair existing erosion damage by repairing the wingwalls at the 7th Street pump station, and by installing wingwalls at the 10th Street culverts; and finally, to improve maintenance access to the 10th Street culverts so that they can be more easily cleared of debris during storms.	<b>NOD</b>	
2000032128	Application to Appropriate Water No. 30362 State Water Resources Control Board, Division of Water Rights Pescadero--San Mateo The Applicant is requesting a water right permit to divert up to 81 acre-feet of unappropriated water per annum, to be used for irrigation of 67 acres of commercially grown potted plants and for fish and wildlife enhancement. The water will be diverted during the period of November 1 of each year to May 1 of the succeeding year and collected to storage in four water storage ponds, three of which have already been built.	<b>NOD</b>	
2000091055	O'Brien/Rogers TPM San Diego County, Department of Planning and Land Use San Diego--San Diego The project proposes a minor subdivision of 9.92 acres into three parcels. The proposed lot sizes would range from 2.1 acres net to 4.1 acres net. The lots will receive sewer service from the Rancho Santa Fe CSD and water service from the Olivenhain Municipal Water District. Access to the project site is by Via De Las Flores. As part of the project, an HLP must be obtained and 6.6 acres of Coastal sage scrub must be purchased off site.	<b>NOD</b>	
2000102118	Plan Amendment #3 - Stateline/Ski Run Community Plan Modification of Community Plan Boundary (Affordable Housing) South Lake Tahoe, City of South Lake Tahoe--El Dorado Rezone one parcel located within the urban boundary by removing it from Plan Area Statement 093 and placing it within the boundary of the Stateline/Ski Run	<b>NOD</b>

	Community Plan.		
2000111058	Gopher Canyon Road AT&T Wireless Facility ZAP 99-038/HLP 00-006/Log No. 99-08-057 San Diego County, Department of Planning and Land Use --San Diego The project consists of the installation of a three-sector directional antenna system with related radio and power cabinets. The antennas will be mounted to an 11-foot tall pipe mount. The equipment cabinets will be installed with a masonry wall enclosure. Landscaping around the perimeter of the enclosure will be provided and the antennas, pipe mount, walls and equipment cabinets will be painted to match the surrounding area.	<b>NOD</b>	
2000112054	Temporary Barriers Project, 2001-2007 Water Resources, Department of Lathrop, Tracy--San Joaquin The South Delta Temporary Barriers Project (TBP) serves the purpose of reducing adverse water level and circulation impacts caused by the State Water Project (SWP) and Central Valley Project (CVP) on local agricultural diversifiers within the South Delta Water Agency (SDWA). The Grant Line Canal, Middle River, and Old River at Tracy barriers are designed specifically for improving water levels and circulation within the South Delta (SDWA). For Streambed Alteration Agreement # BD-2001-0001.	<b>NOD</b>	
2000122009	Application to Appropriate Water No. 30505 State Water Resources Control Board Napa--Napa Application 30505 was filed on 1/19/1996. This application is on a same small Unnamed Stream tributary (on the west side) to an Unnamed Stream (locally called Stanley Creek), thence Napa River. Application 30505 was filed on a proposed 15-acre-foot on-stream reservoir (called "Reservoir 1"). In order to satisfy protestants who divert water from Stanley Creek under water rights senior to this application, Mr. Truchard agreed to install a measuring weir on Stanley Creek in order to be certain that a minimum flow of 3 cubic feet per second is available for senior water right holders downstream before he diverts water into his reservoir.	<b>NOD</b>	
2000122011	Application to Appropriate Water No. 30504 & 30561 State Water Resources Control Board, Division of Water Rights Napa--Napa These two applications are on the same small Unnamed Stream tributary (on the east side) to an Unnamed Stream (locally called Stanley Creek), thence Napa River. Application 30504 was filed on a 25-acre-foot off-stream reservoir which was built between 1948 and 1978. This reservoir is filled from a diversion on an Unnamed Stream tributary to Stanley Creek, thence Napa River, and from two groundwater wells that draw water from fractured bedrock along a fault trace that crosses the Truchard property. In order to satisfy protestants who divert water from Stanley Creek, Mr. Truchard installed a bypass system. He also agreed to install a measuring weir on Stanley Creek for a minimum flow of 3 cubic feet per second. Application 30561 filed on an existing 40-acre-foot on-stream reservoir that was constructed prior to 1960 (Application 17064 was filed on 5/1/1956	<b>NOD</b>

	al. (4.6 acres) for agricultural purposes including the existing fruit stand operated under lease by the Ikeda family; 3) Parcel C - Mace Ranch Partners, et. al. (101.9 acres) for existing ongoing farming; and 4) Parcel D - Darab Bozorgchami (6.9 acres) for agricultural purposes.		
2001049008	SPA 00-004, ER 82-08-120B, Nextel Communications Facility/Inn at Rancho Santa Fe Specific Plan Amendment San Diego County, Department of Planning and Land Use --San Diego The project proposes a Specific Plan Amendment to allow the construction of a cellular telecommunications facility. The proposed project is designated to be compatible with the existing Inn facility and adjacent land uses. The project proponent, Nextel, proposes to install six wireless communications panel antennas on an existing 40-foot wooden pole. There are currently two wood crossbeams, wood mast arms, and power lines. Nextel proposes to remove one wooden pole, crossbeams, and mast arms, relocate the existing transformers to ground level and underground the power lines. Nextel will also remove an existing 45-foot television antenna. The only structure to remain is a 40-foot monopole with antennas. The telecommunications equipment will be installed in 200 square feet of existing, adjacent building. Coaxial cables will run underground from the monopole to the equipment area.	<b>NOD</b>

2000061097	Rincon Casino Interim Facility Rincon San Luiseno Band of Mission Indians Tribal Council Valley Center--San Diego The 180,000 square foot gaming facility is to be constructed on an approximately 65 acre site situated adjacent to the San Luis Rey River and Valley Center Road. The completed Facility will house approximately 59,000 square feet of gaming area, a 200 room, 125,000 square foot hotel, and 2400 parking spaces.	EA	05/11/2001
2001011100	In-Lake Water Quality Treatment Program for Lake Elsinore Lake Elsinore, City of Lake Elsinore--Riverside In-Lake Water Quality Treatment Program designed to improve water quality and the long-term sustainability of the lake. This project is one component of a larger initiative by the San Jacinto River Watershed Joint Powers Authority to improve water quality by developing and initiating watershed protection measures and identifying a sustainable water supply for Lake Elsinore.	EIR	05/24/2001
2001041041	Del Mar Station Joint Development EIR Pasadena, City of Pasadena--Los Angeles Development of a transit-oriented, mixed-use development consisting of up to 349 residential units, 20,000 square feet of commercial space, and a 1,500-space subterranean parking garage, with 600 parking spaces dedicated for use by transit riders. The project will be built around the planned Blue Line Light Rail Del Mar Station. The project includes the adaptive reuse of the historic Santa Fe Railroad Depot building location on the site.	NOP	05/09/2001
2001042058	The San Francisco Estuary Invasive Spartina Project State Coastal Conservancy --Alameda, Contra Costa, Santa Clara, San Mateo, ... The habitats subject to exotic species control efforts include tidal marshlands, lagoons, intertidal mudflats, and the saline reaches of creeks and rivers flowing into the San Francisco Estuary. Eradication/control efforts would be regionally coordinated with other programs in order to minimize disturbance to sensitive habitats and species, while successfully controlling invasive Spartina. The project intends to restore native plant communities and sensitive habitats and species, while successfully controlling invasive Spartina. The project intends to restore native plant communities and sensitive species habitats associated with tidal marshlands and intertidal mudflats along the Bay margins by eliminating introduced Spartina species. The control efforts and alternatives evaluated in the EIS/R will be consistent with the USFWS policies and goals.	NOP	05/09/2001

<b><u>Documents Received on Tuesday, April 10, 2001</u></b>			
2001041040	Hannalei Elementary School Vista City Unified School Dist. Vista--San Diego New elementary school with 750 students enrollment capacity.	<b>Neg</b>	05/09/2001
2001041042	Site Approval and Design Review 2000-136/Pre-zone 2000-137/Development Agreement 2000-140 Big Bear Lake, City of Big Bear Lake--San Bernardino A request to approve the existing marina and recreational vehicle park to operate with 116 spaces RV spaces, expand an existing building, upgrade existing fuel system through site plan, pre-zone and development agreement approval.	<b>Neg</b>	05/09/2001
2001041043	Miner's Hardware Creek Bank CUP 29-99/CDP 61-99R Morro Bay, City of Morro Bay--San Luis Obispo The project applicant proposes to provide creek stabilization on the west side of Morro Creek as it passes by the adjacent Miner's Hardware Store property. This slope stabilization will be limited to a 150-foot by 50-foot area (7,500 square feet) on a 15-foot bank with additional staging area required for construction equipment. Slope production will be accomplished through the placement of quarter-ton class rock over geotextile fabric with a finished slope of 1.5 (horizontal) to 1.0 (vertical). The lower portions of the rock rip-rap will be placed in a manner to create openings in order to provide fish habitat. Approximately 680 cubic yards of cut and fill is estimated to be required with earthwork expected to balance on-site. Existing willow trees and other streambed vegetation is expected to be removed as a result of these creek stabilization activities. Revegetation of the area will occur through the placement of willow cuttings through the geotextile fabric with daylight exposure. Access to the site will occur through the Miner's hardware property. An excavator will be stationed at the top of the creek bank for excavation and rock placement activities. Construction equipment shall operate outside the creek boundaries. A silt fence will be erected at the base of the slope to protect the creek bed area. Any excess soil will be distributed outside the floodplain area.	<b>Neg</b>	05/09/2001

2000122020	The Boulders Condominiums Truckee, City of Truckee--Nevada A 180-unit condominium project on a 15.82 acre site. Land use and zoning approvals include (1) planned development to transfer density, reduce setbacks, and modify parking standards; (2) use permit to allow multi-family units in RS district; (3) development permit for construction of multi-family units; and (4) vesting tentative map to divide ownership of project into condominium units.	<b>NOD</b>	
2001022095	Portable Classroom Relocation to Laguna Creek H.S. and Harriet Eddy M.S. Elk Grove Unified School District Elk Grove--Sacramento Relocation of 17 portable classrooms to Laguna Creek High School and 6 portable classrooms to Harriet Eddy Middle School.	<b>NOD</b>	
2001022101	Buckhorn Forest Fire Station Replacement Project Forestry and Fire Protection, Department of --Shasta The proposed project would involve the construction of a CDF standard 2-bay apparatus building, flammable storage building, crew parking, wash slab and hose wash rack, ground water well, water tank (20,000 gallons), liquid propane tank (1,500 gallons), bulldozer parking area, and utilities landscaping. The proposed project would also involve the acquisition of the 4.45 acre site. The existing apparatus building would be demolished and removed from the site. The apparatus building which was built in 1960 has severe limitations, limited height and lengths. It is not eligible for inclusion in the National Register of Historic Places.	<b>NOD</b>	
2001031025	Outrageous 4H California Division of Oil, Gas, and Geothermal Resources Wasco--Kern Request to drill and test an exploratory oil and gas well on a 2 acre site.	<b>NOD</b>	
2001032015	Best Inn Hotel Expansion El Cerrito, City of El Cerrito--Contra Costa Expansion of an existing 3-story, 48-room hotel to a total of 102 rooms including a manager's unit. A new 4-story building is proposed. The project includes a conference room with capacity of 30 persons. The existing site area would be increased to 68,300 square feet through acquisition of contiguous properties to the north of the present site. A conditional use permit and design review approval are required.	<b>NOD</b>	
2001048141	Santa Maria Branch Office (Remodeled) Rehabilitation, Department of Santa Maria--San Luis Obispo Department of Rehabilitation is proposing to lease 5,744 square feet of remodeled office space in an existing building. Office will have 30+ parking spaces and 20 employees. Public transit is less than 1/4 mile from site. Office will be located in the downtown area.	<b>NOE</b>

**Documents Received on Thursday, April 12, 2001**

2001041059	Indian Canyons Master Plan Agua Caliente Band of Cahuilla Indians Palm Springs--Riverside The Indian Canyons Master Plan examines the needs and concerns of the Agua Caliente Tribe with respect to future recreation enhancements, land acquisitions and conservation efforts within the Indian Canyons sphere of influence. It focuses on the present and possible future of the area, but also addresses regional scale resources and impacts that will affect canyon lands in the future.	<b>CON</b>	04/23/2001
2001042065	Rezone No. 2001-08, Parcel Map No. 2001-10 - Ross and Susan Condit Stanislaus County Modesto--Stanislaus Request to change the zoning designation from A-2-10 (General Agriculture) to planned industrial (PI) and create three parcels ranging in size from .98 to 2.01 acres for proposed warehouse/distribution buildings and vehicle storage area.	<b>CON</b>	04/25/2001
2001021062	Amendment No. 5 to the Central Redevelopment Project Arcadia, City of Arcadia--Los Angeles The proposed project would amend the existing Central Redevelopment Project Area with a non-contiguous area of approximately 75 acres located in a commercial corridor along Live Oak Avenue and Las Tunas Drive, generally between El Monte Avenue and the Santa Anita Wash near Eighth Avenue.	<b>EIR</b>	05/28/2001
2000121093	Loranda Tentative Map San Diego County, Department of Planning and Land Use --San Diego This is a request to subdivide 435 acres into 169 primarily 2-acre minimum residential lots. Approximately 15 acres on the western boundary of the site require 4-acre minimum lots. Currently, the project property is covered by citrus groves on the eastern portion and native vegetation on the western portion. Much of the native vegetation will be preserved in open space and most of the citrus groves are proposed to be preserved on residential lots. The site is located within the Valley Center Community Plan. The entire project area is subject to the Estate Development Area Regional Category and the (17) Estate Land Use Designation. The project also includes a rezone application that will simply move a zone line that currently splits proposed lots, but does not propose to change the minimum allowable lot size. The zoning on both sides of the zone line is for two acre minimum lots.	<b>NOP</b>	
2001041051	Mission Street Specific Plan, Proposed Mixed-Use Transit Oriented Development South Pasadena, City of South Pasadena--Los Angeles The proposed project would result in the removal of two existing single family residences and the construction of a 3-story, 35-foot tall transit oriented mixed-use development on a 72,250 square foot lot. Total site development would include 106,659 square feet in two subterranean levels and three above-ground levels.	<b>NOP</b>	05/11/2001

2001041056	Gemini 9H California Division of Oil, Gas, and Geothermal Resources Wasco--Kern EOG Resources, Incorporation proposes to drill and test an exploratory oil and gas well and identifies 10 contingent exploratory sites that may or may not be drilled depending on the outcome of well/s drilled.	<b>Neg</b>	05/11/2001
2001041057	Dan Blocker Beach Project Los Angeles County Department of Public Works Malibu--Los Angeles The project site is located on approximately 1.92 acres of bluff top at the central eastern portion of the 11.1-acre Dan Blocker Beach. The project proposes to develop a parking area with a maximum of 30 parking spaces, park site amenities (including picnic tables, bench seating, potable drinking fountains, trash receptacles, anodized bluff hand railing, chemical toilets, and an aluminum ramp for beach access. The parking area would consist of decomposed granite and may be paved with asphalt in the future. Access to the parking area would be available from a driveway located off Pacific Coast Highway. Additionally, walkways would be constructed to connect the parking area with the park site amenities and access ramp.	<b>Neg</b>	05/11/2001
2001041058	Julian SBA Telecommunications Facility San Diego County, Department of Planning and Land Use --San Diego The project proposes to lease a 3,300 square-foot portion of a 34.18-acre parcel in the community of Julian. SBA proposes to construct and maintain a 60-foot high steelhead monopine structure for future placement of an antenna array. Up to four concrete pads (20 feet by 20 feet) will be located at the base of the tower within the leased compound to provide locations for future equipment cabinets for various telecommunications carriers. The entire lease area will be located within a fenced compound located along the western property boundary. The fence will be chain-link with a locking gate. Access to the site will be through an existing driveway to the property from Highway 78. The site will be unmanned; approximately one to four visits will be required per month for maintenance purposes. The Julian-Cuyamaca Fire Protection District will provide fire service.	<b>Neg</b>	05/11/2001

	Squaw Valley Road. The plan is designed to avoid potential wetland areas. Existing riparian vegetation is planned to be retained as a buffer between adjacent homes to the southwest. Any development would be substantially consistent with the development plan. Standards and site limitations would be those of the RES-4 (Multiple-Family Residential) zone district.		
2001042067	Thomas and Pauline Williams (Frontier Construction) Use Permit and Reclamation Plan (UP-00-11/RP-00-04) Siskiyou County Planning Department Montague--Siskiyou Frontier Construction requests Use Permit and Reclamation Plan approval for an open-pit gravel quarry within 40 acres of a 100-acre ranch. 1.6 million tons of material are planned for harvest over a 20-year mine life. Annual production is estimated at 50,000 to 100,000 tons. Quarrying activity would concentrate on the easterly slope of a small bedrock knoll. Excavation, rock screening, crushing, and stockpiling are planned. Some limited blasting may prove necessary to loosen bedrock for harvest. A stormwater detention basin and sediment pond are planned to capture runoff and fine sediments byproduct. All stationary and mobile equipment is to be diesel-powered. No batching of any kind is proposed. No on-site fuel storage is proposed initially, but a temporary above-ground tank may be added if warranted. Quarry activities, including crushing and washing and material transport, would be limited to the hours of 6:00 am to 7:00 pm. An exception to this limitation is proposed to allow for the ability to operate without time constraint when fulfilling material orders for public projects. This would enable the site to fulfill large contract opportunities, such as CalTrans or ones proposed by other public agencies. These extended hours would not apply to material transport.	<b>Neg</b>	05/11/2001

2001048160	Issuance of Streambed Alteration to Agreement No. 01-0032, Stillwater Creek, Shasta County Fish & Game #1 --Shasta This project is the annual installation of a temporary culvert crossing on Stillwater Creek, County of Shasta, to allow summer access to property.	<b>NOE</b>	
2001048161	Issuance of Streambed Alteration to Agreement #01-0053, Shasta River, Siskiyou County Fish & Game #1 Montague--Siskiyou The project is the excavation of stream bed material which would otherwise interfere with flow to pump intakes and damage existing fish screens on the Shasta River, County of Siskiyou.	<b>NOE</b>	
2001048162	Interim Removal Action - Granite Canyon Marine Laboratory Toxic Substances Control, Department of --Monterey Removal of approximately 550 cubic yards of Polychlorinated biphenyls (PCB) contaminated soil with a concentration of up to 5,000 parts per million (ppm) from a dirt driveway/parking area. A 210' x 40' area containing the contaminated soil will be removed to a depth of approximately one foot with a smaller source area soil removal to a depth of approximately 3 feet.	<b>NOE</b>	
2001048163	Corrective Action Remedy Selection, General Dynamics OTS (California Inc.) Formerly Known As: Primex Technologies Tracy Test Facility Toxic Substances Control, Department of Tracy--San Joaquin The corrective action process for this facility has identified two areas which will require remediation due to the presence of petroleum hydrocarbons in soil above levels considered protective of human health and the environment. The proposed remedial action, or corrective action remedy for the two areas is to excavate the soil and transport it to a landfill permitted to accept this type of waste. The two areas to be remediated consist of: 1) a fuel storage area found to have approximately 10 cubic yards of soil impacted with petroleum hydrocarbons, and; 2) a site adjacent to the former location of a soil storage tank found to have approximately 57 cubic yards of soil impacted with petroleum hydrocarbons. In total, approximately 67 cubic yards of soil will be excavated and transported to an appropriate approved disposal site. This is the final step required in the corrective action process to clean the site to standards appropriate for residential use of property. No further corrective action will be required for the site.	<b>NOE</b>

2001042074	Gallo Performing Arts Center Stanislaus County Modesto--Stanislaus The Arts Center would be a newly constructed complex in downtown Modesto. The center will have a multi-use theater of approximately 400 seats, and a gallery space for the display of visual art. The total required building area was determined to be approximately 82,000 square feet. It would be located in the block in downtown Modesto bordered by 10th, 11th, H and I streets. It is completely within the City limits of Modesto, within a redevelopment area created by Modesto in the 1990's.	<b>CON</b>	04/26/2001
1999122014	Carneros Lodge / Carneros Partners Napa County Napa--Napa Use Permit Request (#98511-UP) of Carneros Partners, Inc. to establish a 100-unit resort lodge with the construction of two 2-story lodge structures (39,146 sq ft and 29,484 sq ft) which include 44 guest units, 100-seat restaurant, banquet/meeting rooms, lodge administrative offices, retail wine and food store, health and recreation facilities, and a post office; 56 detached cottage-style guest units (528 sq ft); a 3,000 sq ft pool house; an 800 sq ft swimming pool; a water treatment facility (800 sq ft); two sewage treatment facilities (2,811 sq ft), 191-space parking lot with access driveways located on 27.4 acres, (APN: 047-110-001,002,019,047-100-034). A necessary related concurrent action would be the construction of a left turn lane on Old Sonoma Road at its intersection with State Highway 12/121; a right-turn acceleration/deceleration taper on State Highway 12/121; and the installation of left turn lane and a right-turn acceleration/deceleration tapers on Old Sonoma Road.	<b>EIR</b>	05/28/2001
2001044004	Implement International Agreement for Deliveries to Tijuana. B.C. of a Part of Mexico's Colorado River Water International Boundary and Water Commission --San Diego The purpose of the proposed action is to arrange emergency deliveries of a portion of Mexico's Colorado River water allocation through the Southern California aqueduct system to the Tijuana water distribution system under the terms of an international agreement. The proposed action would alleviate some of the current water shortage in Tijuana and conditions that could lead to serious public health and economic problems that may impact inhabitants on both sides of the international boundary.	<b>JD</b>	05/14/2001

<b><u>Documents Received on Friday, April 13, 2001</u></b>			
2001048164	Office Lease for the Department of Justice Berkley DNA Laboratory Annex Justice, Department of Richmond--Contra Costa The Department of Justice (DOJ) will lease approximately 66,381 square feet of an existing office building in Richmond. The proposed location is at 1001 West Cutting Boulevard in the City of Richmond, and was previously occupied. The space will be used as additional space for the DOJ Berkley DNA Laboratory and will include office space and training rooms for approximately 100 current employees. The DOJ Berkley DNA Laboratory serves approximately 25 customers per week, and would need 125 parking spaces on-site. The Lessor will provide a direct shuttle to the BART and AMTRAK stations. Chemicals will be stored at the site, and the laboratory space will contain fume hoods. The Department of General Services, Real Estate Services Leasing Officer shall ensure that the project complies with any regional and local air quality district rules and regulations.	<b>NOE</b>	
2001048165	U.S. Army Corps of Engineers 1997 Mitigation IDIQ for PL84-99 Levee Restoration Reclamation Board Rio Vista, Manteca--Sacramento, Solano, San Joaquin, Yolo Repairs of approximately 95 sites of levee slope erosion that occurred in the floods of 1997 resulted in placement of an excess of approximately 500,000 square feet of rock coverage. Those sites range from less than 100 feet to nearly 1,300 feet long, for a total length of 26,000 linear feet that are currently proposed for restoration of vegetative cover in spring and summer of 2001. The sites will mostly be restored by placing 12" of topsoil on the rock covered levee slope from above the high tide line up to the edge of the rock cover, often near the hinge point of the levee. A few sites will be restored by stripping the extra rock cover off the levee slope instead of placing topsoil. All sites will then have a soil surface that will be reseeded with native grasses using standard erosion control methods. There will be no in-water work, and no large trees or brush will be removed. These restoration repairs of the levee slopes will have minimal direct environmental impacts, and potential impacts to endangered species will be avoided by environmental surveys conducted by the Corps.	<b>NOE</b>
